EDUCATION

University of Santo Tomas — **Manila, Philippines**
Bachelor of Science in Computer Science, Specialization in Data Science — August 2022 - June 2026

Technological Institute of the Philippines - QC — **Quezon, Philippines**
STEM *(Science, Technology, Engineering, and Mathematics)* — 2020 - 2022
2022 - with Honors

EXPERIENCE

Dashboard Analytics Technologies and Software Systems Inc. — **Manila, Philippines**
Business Development Researcher Intern — March 2026 - May 2026

- Help the Data Team create insightful dashboards using BigQuery and Looker Studio.

Achieve Without Borders Inc. — **Makati, Philippines**
Solutions - Project Manager Intern — June 2026 - August 2026

- Partnered directly with Project Managers to facilitate client alignment meetings and author comprehensive weekly performance reports, ensuring transparent communication and stakeholder satisfaction.
- Spearheaded ticket management within Odoo by creating, prioritizing, tracking, and unblocking technical tasks to maintain optimal project velocity.
- Drafted technical scripts, robust project documentation, and critical deliverables to streamline cross-functional workflows and standardize internal company processes.
- Acted as a bridge between clients and engineering, diagnosing support requests and translating complex issues into actionable development tickets to optimize team efficiency.
- Configured Odoo modules and system parameters to align with business processes, ensuring technical workflows accurately support operational goals.

LEADERSHIP & ACTIVITIES

UST Technovation Society — **Manila, Philippines**
Director for Multimedia Productions — October 2025 - December 2025

- Directed end-to-end multimedia production for major events, overseeing the technical direction and visual storytelling that enhanced the society's digital presence and member engagement.
- Collaborated with the Marketing department in helping create promotional content, videos, and photos.

UST Tiger Media Network — **Manila, Philippines**
Technical Director — September 2022 - May 2026

- Leads the technical team and provides assistance in shoots and events planned and organized by TMN.
- Lead the technical team at Paskuhan 2023

UST Computer Science Society **Manila, Philippines**
Documentation Staff 2022 - 2023,
- Documented events and workshops conducted by UST CSS 2024 - 2026
- Edited and applied watermarks in CS Night 2025

External Affair Staff 2023-2024

UST Hiraya **Manila, Philippines**
Member 2022 - 2023

PROJECTS

TigerTix: IPEA Events Reservation System
Systems Analyst
- Monitored system execution and helped document the project's UI and code implementation. Also helped in guidance for the prototyping and code implementation. Requirement for Software Engineering I & II.

Flower Classification using CNN - A Transfer Learning Approach with EfficientNetB0
- Developed a deep learning model utilizing Transfer Learning with EfficientNetB0 to classify flower species from a large-scale Kaggle dataset.
- Implemented fine-tuning techniques and data augmentation to optimize model accuracy and generalizability.

Inflation Trends in the East Asia & Pacific Region
- Collaborated in a team to clean, analyze, and visualize multi-decade economic datasets regarding inflation trends across the East Asia and Pacific regions.
- Utilized Tableau to create data visualizations to communicate complex economic shifts and regional correlations effectively.

ConvNext V2 Model with Focal Self-Attention and Grad-CAM++ for PCOM Classification using Ultrasound Images
- Designed and deployed an AI-driven diagnostic framework for PCOS detection using ultrasound imaging, improving classification accuracy and supporting clinical decision-making.
- Built an end-to-end machine learning pipeline including data preprocessing, model training, evaluation, and interpretability analysis.
- Leveraged advanced architectures (ConvNeXt V2, attention mechanisms) to outperform baseline CNN models in medical image classification tasks.
- Translated model outputs into interpretable visual insights using XAI tools to bridge technical results with real-world healthcare applications.

CERTIFICATIONS

Data Fundamentals Issued January 2026
IBM

Databases and SQL for Data Science with Python Issued December 2024
IBM

Responsive Web Design Issued August 2023
freecodecamp

SKILLS

Programming Languages: Java, Python, SQL, HTML, CSS, Flutter, Git
Programs: Android Studio, Data Studio, Google Cloud - BigQuery, Pytorch, Figma, DaVinci Resolve, Adobe Premiere
Language: English, Filipino
